Computer Science Department Information
Clare Boothe Luce Scholars program

If you are:
- A sophomore planning to apply to become a 2015 Clare Boothe Luce Scholar
- Intending on majoring in computer science
- Looking for potential research projects for summer 2015 through the computer science department,

Then please:
1. Make contact with Prof. Andrea Danyluk (andrea@cs.williams.edu), CBL departmental representative for computer science, to let her know of your plans.

2. Fill out the general CBL application form (see CBL webpage), and submit to Alicia Romac (Alicia.Romac@williams.edu) by or before the Feb 11 deadline.

3. Fill out the Computer Science summer research application form (found at http://www.cs.williams.edu/wp-content/uploads/Summer-Research-Application.pdf) and submit it to Amanda Turner with a copy to Andrea Danyluk. This form is due Feb 17, but if possible, aim to submit it closer to the Feb 11 CBL deadline.

Note that Computer Science faculty will be describing their research at the first colloquium of the semester in early February. You might find it helpful to attend that colloquium in order to get a broad sense of the research in the department.

Remember, you may apply to be a CBL scholar through more than one of the target departments, so please read the materials for each major/discipline through which you are planning to apply.

Even if your CBL scholar’s application is unsuccessful, there is still the possibility of being accepted into the summer science research program for 2015 to work in the computer science department. Decisions and offers for both the CBL scholars program and general summer research positions will occur during early March.

Please get in touch if you have any questions!

Good luck,
Prof. Andrea Danyluk
Computer Science Dept, CBL scholars program co-director.
